

Almost there!

Phase 2 update and ways to help

Elevator

Done. Soon those who struggle with stairs will be able to access all four levels of the school/fellowship wing. Join us in praying for this to bless future students, grandparents and friends.

Graceful Grounds

Yes, this is the name of the room! A place of grace and greeting ... with coffee. We pray God will bring people together here. In just a few weeks you will be invited to make that a reality!

Furnishings Fund

We are grateful to God and to all who have supported this work so generously!

Many have already donated toward the cost of tables, hallway seating and more. We estimate this to be \$27,000. Please consider helping to defray this expense.

BREAKING NEWS!

The Board of Directors just approved plans to bring Phase 3 to the voters this spring. This phase will complete our original design for renovating the Fellowship wing. This phase will include converting the Garden Room to consolidated office space and converting current office space to two meeting rooms, a bridal room, changing rooms for athletes, and storage. Just think—what seemed like a dream three years ago is almost a reality!
