

BUILDING

RELATIONSHIPS WITH

GOD

- Being in a setting of praise & worship with fellow believers is crucial to building a personal relationship with God. A church is ideally set up for this purpose. If you watch a service online, gather your family to join with several other people to watch and discuss it together.
- Remember that God speaks to us directly in His Word, the Bible. Find a translation that is easy to read or one that includes explanation notes. Attend a Bible class and participate.
- Find a devotional resource that you like in print or digital. Ask friends for suggestions or titles they liked. Take a book from Graceful Grounds bookshelf to try. Listen to Pastor Potts on the 'Gospel for You' podcast.
- Intentionally look for how God is working in you, those around you and in the world and share those moments with others.
- Ask God straight out: Lord, show me what You want me to do.
